London Much Disappointed at Nature of Reception of Peace News in New York.

RUSSIAN LOAN DISCUSSED

Stocks Rallied in Later Dealings But Broke Again and Closing Was Weak.

(By Associated Press.)
NEW YORK, August 31.—The stock
market suffered severely to-day from selling was probably induced by fears of a coming money stringency, this fooi-ing being based upon the low level of New York bank reserves, Veteran ob-servers of recent conditions were of the opinion, however, that other and more important causes were responsible for the market's slump. Chief among these is the fact that London, which bought heavily of our stocks on the peace news, is much disappointed at the manner of its reception here and has unloaded the greater part of her recent purchases at

a loss.

The more pronounced reactionary tendency came at midday, when heavy selling caused breaks ranging from 2 points in Southern Paelfe to more than 4 in Chicago and Northwestern. The pressure against Reading and Amaigamated Copper was especially strong, nuch of the selling at this time being in these stocks. The Gould group also was heavy, and bear points on Union Paelfic, with made a maximum decline of 2 1-2, were numerous.

and bear points on Union Pacific, which made a maximum decline of 21-2, were numerous.

The market showed some tendency to rally in the later dealings under the lead of Alcahoon, which was one of the few strong stocks of the *dy. There were recoveries of a point or more in the active issues, with indications of a quiet accumulation in moderate volume, but in the final trading prices broke again, causing a weak closing.

London's sales were not so large as on yesterday. That centres bearish attitude was partly ascribed to the publication of the Bank of England's weekly statement, which showed a heavy decrease if reserve and a greater decrease of general deposits.

Conditions dealing with the much discussed Russian loan have undergone a radical change in the last day or two, according to advices received here by foreign banking interests. By common consent they are now of the opinion that Russia will nególiate her loan abroad.
